The 2022 edition of Fedrigoni 365 follows on from the very topical theme of collaboration and inclusion, but with a difference: this year's Fedrigoni 365 is the product of artists from different disciplines and prestigious creative-printing partners, culminating in a true celebration of the creative eco-system in its entirety. This unique, multi-faceted partnership has produced a calendar that serves as an educational toolkit and source of inspiration for new designers, showcasing the endless possibilities of finishing and book binding.

Danny McNeil, Creative Director and Founder, TM, commented: "In a world where we have found ourselves working from home and communicating through digital devices, Fedrigoni 365 2022 serves as a timely reminder of the tangible, the power of the printed page and the value of collaboration."

Instead of presenting itself as a single-bound book, this year's calendar is a collection of four volumes. Each is produced using various hues of Fedrigoni's Materica paper, a range of finishing techniques, and are singularly printed by four leading printers - serving as a fundamental asset for designers on the wonders of printing. As with previous editions, hundreds of creatives, from designers to illustrators and photographers, were invited to submit a numeric design for an assigned date.

December 1st

World Aids Day. Continuing to raise awareness and support in the fight against a pandemic that is not gone away.
